

# Call for Papers

**Nanoscale Low-Dimensional Electronic and Photonic Devices  
at the 218<sup>th</sup> Meeting of The Electrochemical Society**

<http://www.electrochem.org>

**Las Vegas, Nevada, US**

**October 10-15, 2010**

The fourth NODEPD symposium will address the most recent developments in nanoscale electronic and photonic devices, encompassing low dimensional novel devices, processing, device fabrication, reliability, and other related topics. Papers on both practical issues and fundamental studies are solicited. The symposium will consist of both invited and contributed papers.

A hard-cover *ECS Transactions* issue is planned to be available “AT” the meeting. All authors accepted for presentation are obligated to submit their full text manuscript for the issue no later than June 25, 2010. All manuscripts will be submitted online, and must be in either MS Word or PDF format. Instructions for preparing the manuscript will be sent out by symposium organizers after acceptance of the abstracts.

Abstracts, suggestions, and inquiries should be sent to the symposium organizers or the ECS headquarters office. Symposium organizers(in alphabetic order) :
